This junior development program is designed with a fun agenda every week focused on improving the student's skills in ball striking, chipping, pitching, putting, bunker play and on course play. We rotate groups through different learning stations as well as on the course to learn distances, and how to create shots and score!

Our areas of focus not only include instruction but to ensure kids also demonstrate good sportsmanship, learn the rules and etiquette, as well as respect for the game of golf.

Students will be getting course time each week, instruction on sand play, short game, woods, long game, approach shots while always making it FUN! We celebrate everyone's hard work the last day with an awards ceremony and lunch.

We have amazing staff on board that will be great for the kids! Angela Dehning, Chicago State Women's Golf Coach and LPGA Teaching Professional, Suzie Owens. We will also bring in PGA teaching professionals and college players throughout the weeks to further assist with instructing and on course play. We are dedicated in having your kids find their confidence playing and improving their skill no matter what age they are!

Any questions or to register:

email Suzie Owens: Tincup6489@aol.com or 708-705-2416
Please email Suzie for registration form.
